

A pharmacy service
is available in your area

SN40

Now you can get your NHS repeat prescriptions delivered for FREE to your door

Pharmacy2U is a free service where you can easily order your repeat prescriptions and have your medication delivered to you, for free. So you can save time from unnecessary trips and queues.

Easy ordering and free, flexible delivery

Ordering your prescriptions is easy. You can order online, through the app at a time that suits you best or even by phone if you prefer. Your doctor will send your prescription direct to us electronically and we'll dispense and deliver your medication to you safely at home, work or even to a neighbour.

Here's how it works

Once you have registered with us, repeat prescriptions are easy.

1. **Order your medication** – you tell us what medication you need.
2. **Your prescription received** – we order and receive the prescription from your GP*.
3. **Checked by pharmacist** – we then check and dispense your prescription.
4. **Free, flexible delivery** – we deliver your medication to you at home, work, through the letterbox or a safeplace – for free!

Helpful reminders to re-order

With our free reminder service, we'll make sure you receive your medication on time by sending you a text, email, app notification or phone call to tell you when it's time to re-order. You then simply confirm the medication you need and we take care of the rest.

You can also order at any time online, via the Pharmacy2U app or by phone.

*Service available in England only and if your surgery needs you to order directly, we'll tell you how to do this.

NHS repeat prescriptions
have never been easier

Here are some local surgeries using the
NHS Electronic Prescription Service.

Lawn Medical Centre
Dr Guilding's Surgery
Eldene Surgery
The Hermitage Surgery
Victoria Cross Surgery
And Others

Your surgery has not given us any of
your details for this letter and has not
approved this communication.

“

We're here to help, so you can email or call our pharmacists if you have any questions. We can tell you how each medicine works, what it is for and possibly how to reduce any problems or side effects.

Free medication advice whenever you need it

Our pharmacists are always just a phone call or email away if you ever need help with managing your medication. From simple tips to help you stay on top of your prescriptions to answering questions about side effects or other concerns you may have, we're always here for you.

Our service is free. It won't cost you – or the NHS – a penny more and it could save you lots of time and effort. So register now – it makes sense!

Yours sincerely

Daniel Lee
Chief Pharmacist

“

We use the app to order our medication, which takes seconds. Everything is less stressful as we can get our medicines delivered through the post.

Michelle Francis,
Pharmacy2U patient

Who are Pharmacy2U?

We are the UK's largest online pharmacy¹. Based in Leeds, we help over 300,000 people across England with their repeat prescriptions. We were set up by a team of pharmacists in 1999, who along with our dispensing technicians and friendly customer services team are dedicated to making repeat prescriptions easier for patients.

Is this service free?

Yes! We cover the cost of delivery so it is free to you and the NHS.

¹ According to NHS BSA
www.nhsbsa.nhs.uk/prescription-data/dispensing-data

Free, flexible and safe delivery

Delivery is free and can be to any address in the UK – your home, work or neighbour. We'll let you know when your delivery is on its way and you can choose to have it posted through your letterbox, sent signed for or you can choose a safe place for Royal Mail to leave your parcel if you're not home. In many cases, you can track your delivery for added peace of mind.

"It just takes a few clicks to order my repeat prescriptions and they're delivered a few days later through my letterbox. Saves me time, fuel & queuing!"

Gerry Di-Pede, Bournemouth

"I use the Pharmacy2U website to arrange my medication and have it delivered. It means I don't have to go to the GP or chemist. It's so easy."

Hilarie Bishop, Portsmouth
