Cyclic Maintenance on A419/A417

We are planning essential maintenance at A419/A417. These works will affect various sections of the A419/A417 as noted below, the remaining sections of the A419/A417 outside of the works area shall operate as usual.

What work is being carried out?

Cyclic maintenance includes a series of planned routine activities required to be undertaken on the network to maintain the safety, functionality and appearance of the A419/A417 network. These works typically include grass cutting, gully cleaning and vegetation management.

What are the benefits to road users?

Our work reduces interventions, so the road remains open thus reducing delays and improving journey time reliability. Also, it will provide a safer and smoother journey for road users.

When and where will the work be carried out? (Traffic restrictions – check before you travel)

There will be **night closures from 20:00 hours until 06:00 hours the following morning** on the following dates:

Please note that the A419/A417 will be fully operational as usual outside of the specified hours. Diversion routes will be signed, and signage will also be in place before the start of works as a reminder.

Property access

Should access to your property be required, traffic management personnel will make every effort to facilitate this. However, some delay may occur while safety measures are implemented to allow safe passage through the work site. A contact number will be provided at the closure entrance for assistance.

Noise disruption

Due to the nature of the work we are carrying out there will be times when the work will cause some noise disruption. Every effort will be made to keep the noise to a minimum and we will plan the work to take place at times which will cause least disruption, but please note that this will not always be possible.
